POLICY

Environment Policy

The overall environmental policy objective for the Bufab AB is to contribute to a sustainable society supported by our long-term sustainability efforts.

The Bufab Group and all Bufab companies shall act in accordance with all applicable laws and regulations. In addition Bufab is actively integrating the environmental principles outlined in the Bufab Code of Conduct into our critical processes.

To further minimize our environmental impact we strive to:

- Offer products to our customers that consist of recyclable materials without harmful additives or alloys. To meet these goals, we have an ongoing dialogue with our customers and suppliers.
- Source and promote a sustainable supply chain to minimize the environmental impact on the supply chain of our customers.
- Promote environmental responsibility by encouraging our suppliers, contractors and customers to adopt international environmental principles.
- Optimize energy consumption, not only in our own production and our own transport, but also by developing energy efficient solutions for our customers.
- Work to minimize the environmental impact in terms of our waste and our emissions in the air.
- Educate and engage our staff in environmental issues.
- Actively work with improvements by incorporating environmental concern in our critical processes.
- Select logistics partners that have Corporate Social Responsibility goals in line with our own policies and goals.
- Select logistics partners that contribute to Bufab's environmental impact reduction targets.
